Spring 2024

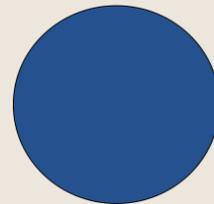

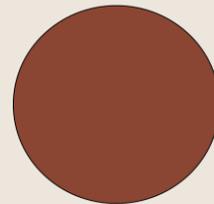

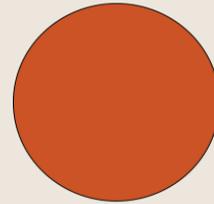

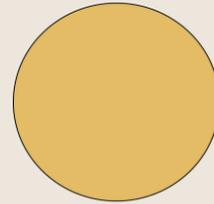

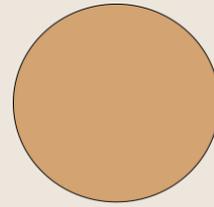

Project Statement

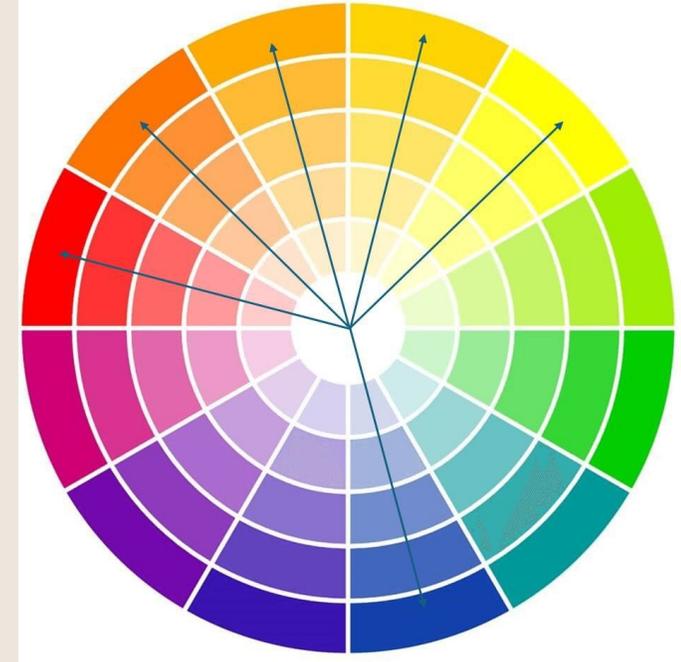

Nestled in the heart of Kansas City's historic West Bottoms district, the Gonzalez family's coffee shop thrives. Maria and Isabella Gonzalez, a dynamic mother-daughter duo, tend to their clientele with a heartfelt mission: to share their heritage and offer comfort to all who step through their doors. Sharing the spirit of family and community, the shop's design expresses the connection the Gonzalez family has to their heritage. An open space decorated with vibrant hues, intricate tiles, and an array of seating options welcomes visitors of all ages. The walls of the coffee shop, rich with texture, serve as a canvas for cherished memories and cultural nods. Rooted in tradition yet embracing modernity, the design integrates patterns and furnishings that pay homage to the family's Hispanic background. Serving as a gathering place for locals, tourists, and families alike, the coffee shop fosters a sense of camaraderie and relaxation. Above the bustling establishment lies the residence of Isabella Gonzalez and her 10-year-old son, a sanctuary steeped in familial history and space for future growth. Radiating with warm hues, intricate patterns, and varied textures the residence shares a sense of comfort and belonging. Isabella envisions her son surrounded by the same charm that defines the family, bridging the gap between the coffee shop and their apartment through shared elements of legacy and love. From reminiscing about the past to forging cherished memories for the future, the Gonzalez family ensures that each visitor leaves with their own memories to share.

Concept Statement

In the heart of Kansas City's historic West Bottoms district lies our envisioned coffee shop, owned by the dynamic mother-daughter duo, Maria and Isabella Gonzales. Inspired by their heritage, the design embodies the spirit of family. The space serves as a hub where locals and tourists gather to unwind, work, or savor sustainable, ethically sourced coffee. Upstairs from the bustling coffee shop, Isabella Gonzales and her 10-year-old son live in a snug apartment filled with coziness and affection. They see their home as a reference to a Ferris wheel against a night sky, illuminated by colorful lights, with a welcoming food stand below and the coffee shop as the bustling food stand beneath. Joined in proximity, both spaces embody their shared values of heritage, family, and growth. Isabella envisions her son growing up surrounded by the same charm, creating cherished memories in a nurturing environment that encourages his development and enriches their bond.
